Logger++介绍

跟 http history 差不过,记录的更加全面了,字段也多了几个

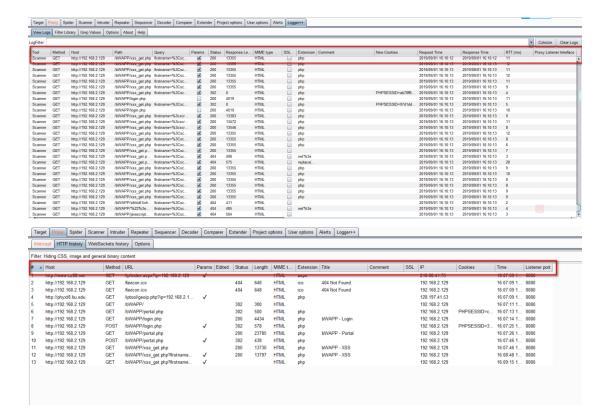

Logger++安装

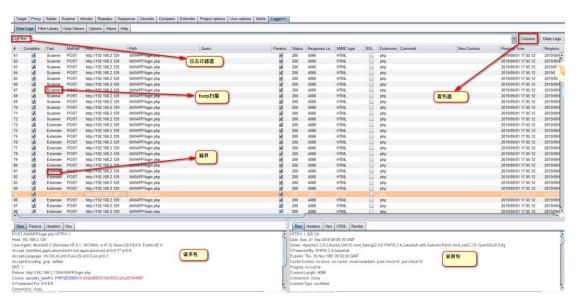

Logger++使用方法

正常开代理就行,不用管,跟 http history 一样

下图是 logger 和 burp 自带的对比

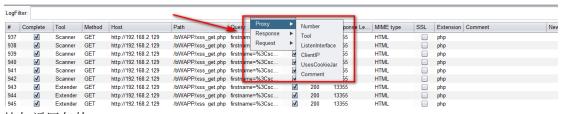

View logs

过滤器使用

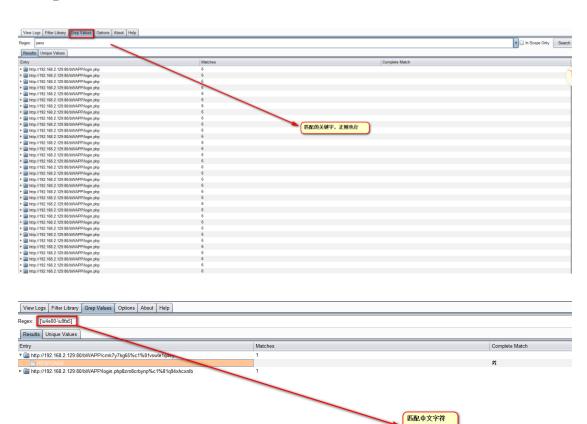

在过滤器空白处鼠标右键,会出现你要用匹配的位置,

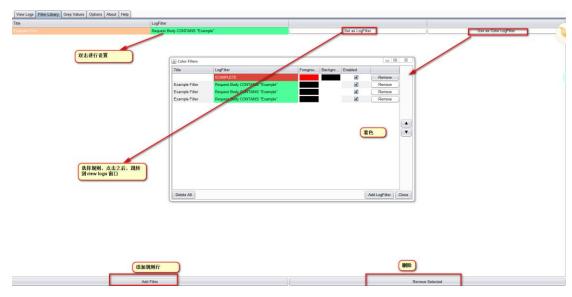

比如返回包的 body

Grep values

Filter library

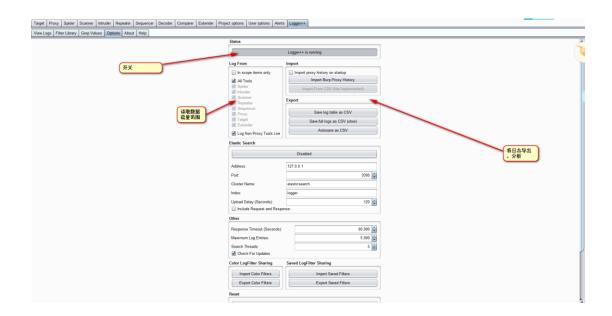

比如我随便找一个匹配邮箱的正则,放进去。之后点击 set as logfilter

点击跳转了,进行匹配

Options

Logger++头疼疼
